

At Willowmavin Primary School, we seek to nurture and develop students who are active, respectful and safe members of their community, capable of overcoming setbacks and who consistently strive to do their best.

Be Your Best

To always do your best and be the best that you can be. This is especially important when nobody else is watching.

Respect

Thinking and acting in a way that shows others you care about their feelings and their wellbeing. Respect also means taking care of yourself, others, our school property and our environment.

Resilience

The ability to accept that things will sometimes be challenging and not go the way you would like, and not letting such situations cause you to give up or become overly upset.

Safe

Always acting and behaving in a manner that ensures we are looking after ourselves and each other so that we feel healthy, safe, comfortable and happy.

Teaching and Learning at WPS

The core purpose of Willowmavin Primary School is to provide an inclusive, rigorous learning environment that challenges and engages our students to grow as passionate learners. The school seeks to develop motivated, creative and independent learners with strong literacy and numeracy skills. Students graduating from Willowmavin Primary School are students who have been taught sound social values, have had varied leadership opportunities, and who demonstrate resilience and self-esteem in their day to day actions and interactions.

Our Students at WPS

Our students are all individuals and we celebrate their diversity and uniqueness. One thing all our students have in common, however, is that they are all members of the Willowmavin Primary School Community. Our students are the centre of what we do at Willowmavin. All decisions are based around one question: "Will this improve outcomes for our students?" We use student surveys and student leadership roles to provide our students with a voice in their school and to ensure we have student-centred classrooms.

Student Wellbeing at WPS

At Willowmavin, we recognize that in order to achieve positive academic outcomes for our students, we must build a school environment where students are supported to develop positive wellbeing outcomes. Student wellbeing is a priority and is constantly a consideration in our day to day activities as well as planning for the future.
